

HW16-Team: Storyboarding (1 + 1 = 2 p)

Spring 2024

Instructions

Project Team number and name: **Subject Spotlight/Team 8**

Names of students who actively worked on this assignment:

- Student 1: Aayushie Suresh Vairagade
- Student 2: Aditi Mahendra Joshi
- Student 3: Jigar Naik
- Student 4: Pratik Patil
- Student 5: Shivani Ravindra Kedar

1. See slides (UX 3-Wireframing). Make sure to check the links to additional resources on the slides.
2. Get Balsamiq (web version of the 30-day trial) and play with it: <https://balsamiq.com/> .
Note, there is a way to collaborate as a team, using Balsamiq Google Drive chrome plugin: <https://chrome.google.com/webstore/detail/balsamiq-wireframes-free/imbfadckkgblfbkinjeideobpfbcopgb?hl=en>

NOTE: It is ok to use other wireframing tool, if your team prefers.

3. Create a storyboard for your product:
 - a. First, sketch ideas by hand for your product. Take photos (use proper lighting and image quality), insert into this doc (below), save as **pdf** and upload on Canvas. Make sure frames are large enough for us to review.
 - b. Second, using Balsamiq (or other tool), create lo-fi wires and arrange them in a storyboard (first decide on activity that a target customer would perform and then describe it using the storyboard. The reader should be able to see clearly the triggers and sequence of events. Upload on Canvas as **pdf**. Make sure frames are large enough for us to review, see the PRD Report Examples.

NOTE: upload these two files separately.

Page limit for Sketches or Storyboard: ten (not including Instructions).

⑨ Review Page.

A hand-drawn sketch of a mobile application screen titled "Review Page". The screen is enclosed in a rectangular border. At the top left, there is a small square icon containing a left-pointing arrow. Below this icon, the text "Review for Professor" is written. Underneath the text is a large, empty rectangular box. Below this box is a rounded rectangular button labeled "Submit". At the bottom of the screen is another large rectangular box labeled "Keypad".
